# Five Star Thermal Cladding

## Save BIG \$\$\$ On Construction Costs!

● **NO Brick Work**

● **Strong**

● **Insulates**

● **Light Weight**

● **Easy Installation**

- Light weight. Minimum to no scaffolding required.
- Tongue and grooved for precision aligning and fixing using five star jointing foam for superior joint fixing.
- Can be glued to timber brick or steel with special formulated five star adhesive.
- Can be cut molded and shaped with ease

## Thermal Excellence

### Applications

- Many forms of external and internal uses.
- Walls ceilings or floors.

### Finishing

Is only restricted by ones imagination. Many finishes are available.

The foam is recommended to be finished with a roll textured application.

This can be varied by the type of roller used and the finishing you select to create ones individual tastes or requirements.
